Re: WC Docket Nos. 16-363, 10-90 & 07-135, CC Docket No. 01-92

Dear Ms. Dortch:

On October 11, 2017, David Aldworth, Gary Fry and the undersigned, representing Teliix, Inc. (Teliix) met with Jay Schwarz from Chairman Pai's office. We discussed Teliix' positions previously filed in the above-captioned proceedings.

Teliix explained how the existing rules for originating and toll free access enables quality service, competition, economic growth, employment and innovation, including Teliix's Toll Free Exchange. The Toll Free exchange enables routing of toll free calls on a RespOrg to RespOrg basis, using SOMOS 8YY data, over IP transport and on the basis of contract, rather than under tariffs. We also discussed how AT&T's proposal to make end user customers pay for toll free calls could result in the demise of toll free calling and is inconsistent with the public interest.

This letter has been filed electronically with the Commission's EFCS platform.

Sincerely,

/s/ Robert H. Jackson
Robert H. Jackson
Counsel for Teliix, Inc.

cc: Jay Schwarz
